

## **ACCESSORIES AND ANCILLARIES**

# **Vetonit Solvent XX400**

Closed cell polyethylene backing rod

### Uses

- Cleaning equipment and tools after using or mixing epoxy-based resins.
- Thinning specific epoxy products.

## **Product Description**

Vetonit Solvent XX400 is a solvent blend that's designed for epoxy resins found in all Saveto epoxy products.

# **Usage Instructions**

## **Application**

To clean tools and equipment after use, It is best to pour some Vetonit Solvent XX400 into a container and then clean them inside said container.

To clean substrates, the solvent can be poured directly or applied using a piece of cloth or paper.

To thin out Saveto products, please refer to the products' datasheets, and consider the thinning ratio to the original material (You can also contact your local Saveto office for more information on this regard). For other products, strictly follow the product thinning ratios mentioned in their technical datasheets.

### **Technical Data**
